

COMMUNITY HEALTH CENTER RESOURCES

ARE YOU USING ALL RESOURCES AVAILABLE TO YOU?

The battle to save money and improve efficiencies does not have to be fought alone. It may be worth talking with one of these organizations that have proven track records supporting CHCs with their needs, and working with NCBDC to access low-cost capital.

The Commonwealth Purchasing Group is a group-purchasing program for community health centers created by the Massachusetts League of CHC's. More than 115 CHC's and other community-based organizations in 13 states actively participate in the program. It doesn't cost anything to participate and members have savings averaging over 20%. Commonwealth has discounted master contracts with nationally recognized vendors providing office, dental and medical supplies (including prescription drugs) plus office copiers, computers and employee benefit plans. Contact Rick Bryant at (617) 426-2225 and see www.massleague.org for more information.

VirtualCHC provides convenient online hosting of quality software to meet the needs of community health centers. Available via VirtualCHC are practice management systems & electronic health records including for dental; general ledger/accounting; Microsoft Exchange, Office & Visio; custom software; list serves; and web site hosting. This service is available to CHCs that have standard computers and printers with Internet access. VirtualCHC's data center presently serves health centers in several states - providing excellent data availability and security. For information, call toll free (877) 345-8242, or visit www.virtualchc.net. VirtualCHC is a service of the Michigan Primary Care Association, a nonprofit corporation.

Capital Link assists health centers in strengthening their abilities to plan and carry out successful capital projects. Working nationally, Capital Link is dedicated to providing extensive technical assistance to health centers throughout the capital development process, including work plan development, financial and market feasibility reviews, space programming, business plans and financial forecasts, proposal development and more. For more information, please contact Mark Lurtz at (636) 294-1603 and visit www.caplink.org.
