CPCA Ventures Loan Program

In an effort to help California’s community clinics and health centers continue to meet the expanding needs of the state’s traditionally underserved communities, Capital Impact Partners has joined with the California Primary Care Association, The California Endowment, and Dignity Health to create a loan program for facility projects, equipment purchases, and working capital financing.

Where many lenders may only see risk and collateral, it is our mission to help you build and expand facilities that increase access to health-care services in low-income communities.

Since the program’s inception in 1999 we have helped community health centers throughout California build and expand their operations, helping them to better serve hundreds of thousands of patients so they may live healthier lives.

We invite you to apply for a loan through Capital Impact Partners.
