

Building Communities of Opportunity through the **Cooperative Model**

Sponsor the 2022 **Co-op Innovation Award**

Join Capital Impact Partners and National Cooperative Bank as a sponsor to increase funding for Capital Impact Partners' Co-op Innovation Award. The award was launched in 2015 to encourage cooperative growth and development in historically disinvested communities and/or communities of color. Catalytic seed funding and technical assistance are provided to early-stage, innovative projects that have the potential for replication.

In the past three years alone, there have been more than 220 applications from across the country from cooperatives and organizations that support cooperative development. With the current level of \$100,000 in funding, only three annual awards are disbursed at the \$25,000-\$50,000 level.

This is a unique opportunity to support the cooperative ecosystem and racial and economic justice during an unprecedented national crisis.

Since the award was launched in 2015, **the 17 Co-op Innovation Award grantees have:**

Leveraged their combined \$515,000 in awards to secure more than \$8.2 million in additional funding from foundations, investors, and government

Replicated six programs regionally

Worked with more than 20 local or state governments

Reached more than 2,000 community members through meetings and training

Capital Impact and National Cooperative Bank believe that the cooperative model can **disrupt income inequity, build assets and quality jobs, increase community ownership, and create strong vibrant places of opportunity.** We hope you will consider sponsorship at one of the following levels and help us expand the Co-op Innovation Award's impact.

Sponsorship Levels – Join Us!
