Providing People With The Capital and Opportunities They Deserve

Small business owners, developers, and other local leaders are the engines of job creation and economic activity in communities across the country. When they succeed, their communities, local residents, and our country - thrive. The current financial system, however, does not provide everyone - especially people of color - with the opportunities they deserve. This means these local leaders are denied the opportunity to contribute fully to their communities and our shared economy.

Momentus Capital was created to meet this challenge

Providing a Continuum of Solutions

Momentus Capital is a first-of-its-kind financial organization that brings together leading organizations rooted in social mission to provide a continuum of financial, social, and knowledge capital at every growth stage to support economic mobility and wealth creation.

Small Business Lending
SBA working capital loans and 504 commercial real estate financing with conventional options for those who don't qualify for traditional financing.

Community Development Lending
Flexible and affordable financing for community pillars including health centers, education facilities, food retailers, affordable housing, and cooperatives.

Impact Investing
Investments in growth-stage enterprises and small businesses with a community focus through diverse investment instruments.

Business Advising & Capacity Building
Training, business advising, and access to professional networks and mentors to jumpstart careers and help entrepreneurs launch small businesses.

Community Lender Software Portal
Technology solutions that provide a low-cost and streamlined way for community lenders to offer services throughout the entire loan lifecycle.

Community-Focused Investment Bank Services
Coming Soon! We are developing a first-of-its kind mission-driven investment bank to better connect investors with community organizations through community-centric securities offerings.

What We Are Solving For

Through our unwavering commitment to advancing economic mobility and wealth creation, we can harness this moment to disrupt old models and uplift individual stories, goals, and dreams.

Exclusionary Practices Creating Economic Inequity
Outdated financial approaches continue to exclude too many people - especially people of color - from equitable access to capital and opportunities, fueling the continued growth of the racial wealth gap.

Lack of Place-Based, Community-Led Solutions
Attempting to implement uniform lending products and programs across communities has not had a deep and lasting impact. Trusted organizations that listen to, value, and implement community-led solutions need to be the norm rather than the exception.

Disconnected Capital Supply & Demand Between Investors and Communities
Institutional investors are currently disconnected from the community organizations and projects that drive real, scalable impact. This has created a key gap in existing capital, making local leaders unable to access and leverage it effectively.

How We Drive Change

Address Systemic Issues
We break down barriers to success by addressing systemic issues through training, mentorship, and network building for developers and entrepreneurs.

Serve as Market Innovators
We develop lending products and impact investments for borrowers whose projects have been traditionally denied credit.

Policy Advocacy
We unite and work with federal, state, and local policymakers and key stakeholders to advance sound public policies to create systemic change that empowers people and their communities.

National Presence, Local Focus
We bring our listen-first approach to multiple cities across the country. We learn what works in one community and adapt it for others, based on local circumstances and priorities.

Continuum of Capital Solutions
We provide a continuum of financial, knowledge, and social capital that meets the needs of our partners and supports their vision of success.

Leverage Technology
We deploy technology solutions for community-focused partners and lenders as well as our own employees to amplify our work with and for communities.
